

Roses (shrub/English) — Quick Guide

Best Method

- Semi-ripe (late summer) / hardwood (winter)

Root Time

- 6-12 weeks

Potting-On

- Pot when a gentle tug resists.

Propagation Tips

- Best on own-root types.
- Avoid patented / PBR plants.
- Shelter hardwood sticks over winter.

Label Format

- Example: “Roses (shrub/English) — Semi-ripe (late summer) / hardwood (winter) — 12-May”
